The February - Soft Turquoise small diamond section requires the following:

1 each of:
Block 9: Jamie
Block 29: Erin

2 each of:
Block 18: Lynette
Block 40: Maike

10 of Template T: 3” triangle filler
2 of Template U: 6” triangle filler

Each of the six small outer star point sections reflects left to right on each side of a line (red) drawn vertically through its center.
This full-color image will allow you to zoom in on the PDF and get a better look at my fabric placement, particularly in the reversed/reflected blocks. It would be difficult to get perfect reflections unless we start with fabrics that contain mirror images; so we fool the eye by using fabrics of varying value and prints to create what we see as a reflection. Reflections can be a subtle thing depending on light and angle of view. When viewing a reflection in water the waves often disturb the image. Reflecting on moments in our lives is a subjective view, dependent on your state of mind at the time. Take time for reflection!
