The May - Yellow large diamond section requires the following:

2 each of:  
Block 7: Robin  
Block 40: Maike  
Block 31: Narelle

4 of:  
Block 32: Gesine

16 of Template T: 3” triangle filler  
4 of Template U: 6” triangle filler

Each of the six large inner star point sections reflects left to right on each side of a line (red) drawn vertically through its center. It also reflects from top to bottom on each side of a line (green) drawn horizontally through its center.
This full-color image will allow you to zoom in on the PDF and get a better look at my fabric placement, particularly in the reversed/reflected blocks.

It would be difficult to get perfect reflections unless we start with fabrics that contain mirror images; so we fool the eye by using fabrics of varying value and prints to create what we see as a reflection. Reflections can be a subtle thing depending on light and angle of view.

When viewing a reflection in water the waves often disturb the image. Reflecting on moments in our lives is a subjective view, dependent on your state of mind at the time.

Take time for reflection!
